

AGN. NO. _____

MOTION BY SUPERVISOR YVONNE B. BURKE

May 9, 2006

The United States Tennis Association has declared May as National Tennis Month which was designed to promote the physical and psychological benefits of playing tennis. Tennis is a great activity for kids and families, and the Los Angeles County Parks and Recreation tennis activities during the month of May are a great opportunity to introduce the sport of tennis as a family sport, and to focus on positive activities for families. Additionally, tennis encourages activity and is a wonderful way to battle the obesity epidemic and stay healthy.

I THEREFORE MOVE THAT THE BOARD OF SUPERVISORS

Proclaims the month of May as Tennis Month in the County of Los Angeles and encourages residents to visit and take part in the many tennis programs available to them through the Los Angeles County Department of Parks and Recreation.
